SUMMARY

Frontend Developer skilled in JavaScript, TypeScript, React.js, Redux, HTML5, CSS3, Tailwind CSS, and Bootstrap. Experienced in building responsive web applications, integrating REST APIs, implementing authentication systems, and optimizing user experiences. Strong problem-solving abilities with a passion for developing scalable and maintainable web solutions.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering

Expected Graduation: 2027

EXPERIENCE

Full Stack Development Intern

June 2026 – Present

Cognifyz Technologies

- Developing responsive web applications using HTML, CSS, JavaScript, and React.
- Working on full-stack projects involving Node.js, Express.js, and MongoDB.
- Collaborating on project implementation and debugging activities.
- Following software development best practices and version control workflows.

PROJECTS

AI Voice Translator Application | Technologies: React.js, Node.js, Express.js, MongoDB, JavaScript

- Developed a web application that converts speech to text and translates content into multiple languages.
- Integrated speech recognition APIs for real-time voice processing.
- Created a responsive React-based interface with language selection functionality.
- Implemented backend APIs for translation processing and history management.
- Stored translation records using MongoDB.

Smart Canteen Management System | Technologies: React.js, Node.js, Express.js, MongoDB

- Built an online food ordering and management platform.
- Implemented user authentication using JWT.
- Developed admin dashboard for menu and order management.
- Added order tracking and notification features.
- Designed responsive UI for mobile and desktop devices.

Task Manager Application | Technologies: React.js, Redux Toolkit, Node.js, MongoDB

- Created a task management platform supporting CRUD operations.
- Implemented state management using Redux Toolkit.
- Integrated REST APIs for task synchronization.
- Optimized application performance and user experience.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, MySQL

Tools & Platforms: Git & GitHub, VS Code, Postman, npm, Vercel, Netlify

ACHIEVEMENTS

- Built multiple full-stack web applications using the MERN stack. - Strong understanding of responsive design principles. - Experience working with REST APIs and authentication systems. - Active contributor to personal GitHub projects.

SOFT SKILLS

- Problem Solving - Team Collaboration - Communication - Time Management - Remote Work Adaptability - Quick Learning Ability
